

VANDERHOOF & AREA PRODUCER DIRECTORY

The **Nechako Valley Food Network** is creating a printed directory of local food producers for distribution in our community. The goal of the directory is to be a community resource guide that will help link local food producers with interested consumers, thereby, *supporting our local economy* and *supporting healthy living*.

The directory is open to **large and small-scale food producers**, along with **backyard gardeners**, who sell or have goods (meat and/or veggie) available for local consumers. Producers are asked to please contact us to be included in this valuable community resource.

LISTING IN THE DIRECTORY IS FREE!

Please contact us by June 11, 2010

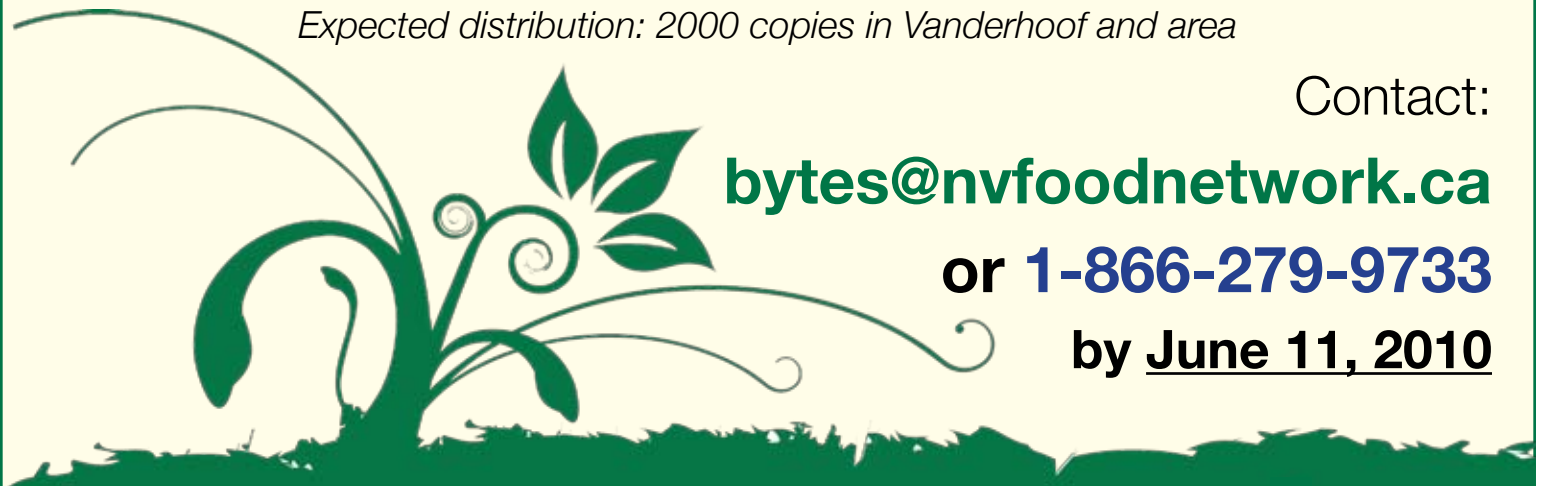

Expected distribution: 2000 copies in Vanderhoof and area
